

**Corrective Action Required:**

Please ensure all harnesses are removed from all vehicles and placed in the Bin marked "Harnesses" near the PPE bay.

Please do not use a Harness unless you have checked it is tagged out with a current "BLUE " tag.  
Thank you we appreciate your help!

<b>OCT – DEC</b> Yellow Tag	NEXT INSP. DUE:

**COVID**

Please note there is daily changes to restrictions across the state and country please stay informed - [COVID-19 update | Health and wellbeing | Queensland Government \(www.qld.gov.au\)](#)

We have now been registered with the Qld Covid Safe App, please ensure you are using this across all your movements and in the office and workshop to ensure if there is contact tracing you are able to be traced.

**Management Updates:**

We want to take this opportunity to thank **Gordon Wales** for his service with DCS over the past 3 years. He has been our longest standing Supervisor on the Field Team and has contributed greatly to the entire DCS business. He has established work groups at Curragh, trained and mentored countless DCS Team members and has always spoken up for what he believes in. He has contributed to many initiatives across the business and safety improvements, including his hazard reporting which was always completed and consistent.

Gordon owned his mistakes and he was quiet achiever, as many wouldn't be aware of what he contributes to after a shift is done with many operational improvements, including the job sheet layouts, pre-start books, vehicle inspection processes, tooling and equipment and more have been because of his knowledge, experience, and passion.

We are going to miss your feistiness and passion but most of all your loyalty and friendship. You and your family will always be apart of the DCS family and hope to see you again soon!

We have a large amount of topics to touch base on so we would really appreciate your time to go through this and cover it at the next lot of DCS pre-starts

1. We have a significant **increase of scheduled work** coming in which we are excited to have for our team, please ensure if you require **leave** over certain days / times to please let Jacqui know at least two weeks in advance, we are already working on the schedule a fortnight out. Please manage your fatigue and attendance.

**Events**

We recently excepted some jerseys to display in our office from the Mackay City Hawks Women's team we sponsor, who participated in the recent indigenous round. We are proud to be supporting our local community and events!

**The NAIDOC 2021 theme – Heal Country! – calls for all of us to continue to seek greater protections for our lands, our waters, our sacred sites and our cultural heritage from exploitation, desecration, and destruction**

We acknowledge the traditional custodians of the lands that make up our region, the Yuwibara people. We also acknowledge all other Aboriginal and Torres Strait Islander people who call our region home.

We are proud to be apart of our local community. NAIDOC Week celebrations are held across Australia each July to celebrate the history, culture and achievements of Aboriginal and Torres Strait Islander peoples. NAIDOC is celebrated not only in Indigenous communities, but by Australians from all walks of life. The week is a great opportunity to participate in a range of activities and to support your local Aboriginal and Torres Strait Islander community.

2. **Site authorisations, SOP's, WAF's and training.** We are continuing to get through as much as possible where we can in scheduled gaps please ensure you are prepared and ready for what has been discussed.

We also have concerns with Site access also especially at CRM as it is not clear when you have the potential to be locked out until you get there. So we urge you if you have been emailed by Kerrie-ann or Adrian regarding SOP's please ensure these are closed out as quickly as possible to prevent traveling out and not making a shift.

3. **Recruitment drive.** We continue to interview and recruit, you will be seeing a lot of fresh new faces joining our team, we welcome all our new Filed Team members we are excited to have you onboard and apart of the DCS Family. Please help our new employees whilst they are learning!!!!

If you know of someone looking for flexible work out at the mines, please recommend us and pass on details to Jacqui !

4. **DCS Pre-starts.** We are not seeing completed DCS Pre-starts these need to be done prior to arriving onsite either at the gate or at camp. Its an opportunity to check on each other and be prepared for work. This also is an opportunity to call operations if there is someone not there. It allows us to complete a **wellbeing check** if required in a timely manner and allows you all to check in with each other if you are not there ready to go. Knocking on someone's door may be the difference in making a shift if you have missed your alarm.

**Positive feedback:**

**Changes to employee of the month** – we have changed our reward system to recognise outstanding safety contributions and 100% attendance to Shift and Training. We will be providing Coles vouchers monthly for these areas.

**Site Notifications:**

- **Glencore – Covid Check in App - as per attached**
