PERFORMANCE,
INNOVATIVE THINKING
AND QUALITY THAT
MATTERS, DCS ARE
LEADING THE WAY IN
MINING INDUSTRIAL
CLEANING SINCE 2011.**

ABOUT US

Established in 2011, DCS & DCS Industrial are family owned and operated businesses, headquartered in Mackay, QLD.

Providing one-time maintenance requests, decommissioning plant and infrastructure, routine maintenance days, CHPP, last-minute breakdowns, and planned closure work to over thirty mine sites, industrial workshops, and contracting agents.

Highly skilled operational and maintenance personnel, who have a combined twenty-plus years of service experience in the mining and industrial sectors.

Industry leader in Bowen Basin industrial Cleaning.

Supplying a high-caliber fleet, high-risk certified field team (including certified Supervisors and machine operators) and proudly a Queensland approved labour hire provider.

OUR VALUES

D

Dedication through our pride in our services and community footprint,

C

Compassion through our actions in ensuring respect, well being and team pride,

S

Safety as a mindset not just practices.

HSEQ

QUALITY

DCS' Quality Management Standards outlines how we provide cost effective and efficient services, through continues improvement mindset and initiatives, KPI review and quality control processes, to ensure the highest industry standards, high-performance equipment, and processes.

HEALTH & WELLBEING

DCS' top priority is the safety of not only our own, but all interacting personnel. Our policies and procedures contain in-depth information on how to maintain a healthy and safe work environment,

DCS' aims to achieve zero workplaces incidents.

Our policies and procedures are continuously being reviewed to ensure we go above and beyond to ensure the safety of employees, contractors and the public.

SAFETY

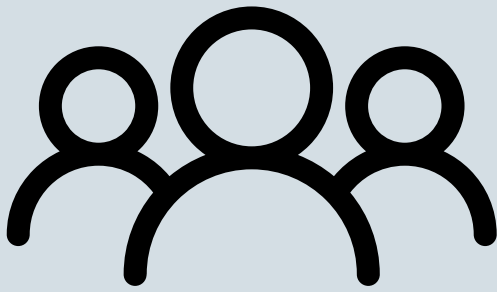

DCS undertakes continuous risk management in the workplace to ensure the safety of all employees and personnel that we may interact with during our operations.

We embedded our Safety Values across the organisation to show visible leadership towards safety and we perform all our services in accordance with site safety management systems.

ENVIRONMENT

DCS understands the importance of the effect we have on the environment, which is why we ensure our Environmental Management Plan (EMP) strictly complies with the highest standards regarding the safe use of environmentally friendly chemicals, and the efficiency of our equipment. We continue to seek the most efficient and innovative practices to reduce our environmental impact, procure from suppliers whom have environmental conscious practices, low emission schemes and products. Whilst working hard to increase employee awareness and how they can contribute to our environmental targets.

COMMUNITY

DCS are proud to supply employment opportunities in Mackay and the Bowen Basin.

We provide training and development for all skill levels and career pathways and progression opportunities.

We source from an established network of local suppliers to undertake our compliance, safety and purchasing needs.

DCS take pride in supporting local sporting events and community sponsorship, currently sponsoring:

- Mackay City Hawks Inc. – 2021-2023 Mackay AFL seasons
- Puka Up/ Outside the Locker Room
- Mackay Basketball Associate
- Riley Beggs (RB Racing) – Excel Motor racing
- Multiple local sport events across the Mackay region.

We have developed wellbeing presentations and packages with the Charity representatives for our DCS Team available to all the community.

The DCS team participates in blood donation days, R U OK Day and supporting Women in Business. We contribute annual donations to the Australian Red Cross – Bush Fire Appeal, Canteen, FNQ Hospital Foundation, Everyday Hero's, The Salvation Army, Movember, and the Cancer Council.

OUR VISION

To be the supplier of choice in Industrial Cleaning Services in Mackay and the Bowen Basin.

OUR MISSION

Our team is dedicated to providing innovative solutions and high-quality industrial cleaning services; we pursue excellence in everything we do. Our organisation is committed to investing in a sustainable future, surpassing the expectations of our stakeholders, and fostering relationships founded on mutual respect and trust.

OUR FLEET

Our state-of-the-art vacuum, water blast trucks, and hot water blast trailers ensure that we can complete every task in a safe, effective and self-sufficient manner.

Constant maintenance is performed on our equipment and vehicles to guarantee site specific compliance and secure operation. For this reason, our devices provide the greatest benefits in terms of environmental impact, cleaning efficiency, and cost-effectiveness.

We ensure that every vehicle undergoes inspection and complies with the necessary individual site requirements.

WATER BLAST & VACUUM TRUCKS: DCS13, DCS16, DCS19, DCS21 & DCS123

High CFM vacuum with two hoses - 25 meters/3 inches 30 meters/2 inches. Capabilities to draw both dry and wet material.

60 meters of hose with high pressure hot water capabilities of 150 degrees, with pressure washing and cleaning at 4000PSI.

4000 liter water tank

These trucks are best suited for:

- Draglines
- Dynavanes
- Shovels
- Drills
- Excavators
- Hydro Excavation
- Vacuum Loading
- Workshop & Infrastructure
- Drain & Pit Cleaning
- Weed & Seed
- Transport Clean

NEW** DCS21 and DCS123 are custom-built Vacuum Truck with a nine bag-house pulse injected filtration system for maximum performance in vacuum loading Dry material. Years of custom designing, knowledge and experience has gone into developing this truck, specialised for Dragline maintenance. Providing the High-Pressure Performance and Quality that counts!

FILTER TRUCK: DCS22

DCS22 Water Blast Truck (4200Lts) supplies high volume and high-pressure hot water with capabilities of 155 degrees, and pressure washing and cleaning at 3800PSI.

This truck is best suited for:

- Draglines
- Dynavanes

LIGHT VEHICLES:

**DCS1, DCS04, DCS05, DCS08, DCS10,
DCS14, DCS15, DCS17, DCS18, DCS124,
DCS125, DCS126**

Our light vehicles consist of five star ANCAP Dual Cab Mitsubishi Triton, Toyota Hilux, and Ford Raptor Ute. Each vehicle is fitted with toolboxes and PPE kits with a wide range of tools and equipment available to ensure efficient and effective cleaning.

TWIN WATERBLAST TRUCK: DCS06

Our ultramodern Hot Water Blast Truck is fitted with high volume water pump with two pressure washer units and holds 8000L of water. Each unit supplies 15Lts per minute of water at 3800PSI.

This truck is best suited for:

- Draglines
- Drills
- Dynavanes
- Excavators

QUAD WATER BLAST TRUCK: DCS11

Our Quad Water Blast Truck consists of two pressure washer units, each unit containing two gurneys each. DCS11 has a 13,000L water tank, each unit supplying 17Lts per minute at 3800PSI. DCS11 also includes a foaming system and a high-volume pump which can be adjusted to low volume for more fragile areas of machinery.

This truck is best suited for:

- Drills
- Draglines
- Dynavanes
- Excavators
- Shovels

HOT WATER BLAST TRAILER: DCS08PWT

Our Hot Water Blast Trailer consists of a HAWK gernie, that has a maximum operating pressure of 3625PSI. the 2024 model is easy to transport to any machine-washing needs. with a 2000 L tank you can assure that the job will be done.

This truck is best suited for:
Drills
Draglines
Excavators
Shovels
Workshop and Infrastructure

DCS HOT WATER BLAST TRAILER: DCS05T

Our custom-built heavy duty hot water blast trailer is available for all machine-washing needs. embodied with a JetBlaster 4000PSI gernie.

STREET SWEEPER: DCS20

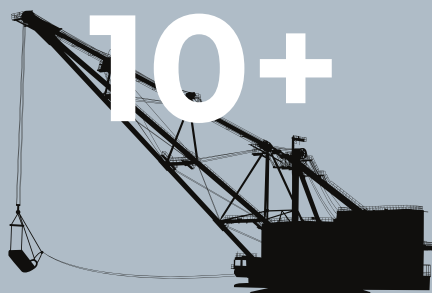

Our street sweeper is available for port facilities and workshop laydown areas. Its ideal for large off-shore loading debris cleans, workshop laydown areas and civil works.
